Packages

ITEM # 2120-1001 Regular Kit Black ITEM # 2120-1002 Regular Kit White

- Apex Locator

Accessories: File holder(1ea), Cable(1ea), Lip Clip(3ea), Y-shaped stick(1ea)

Accessories

- ITEM #2120-1010 File Holder
- ITEM #2120-1020 Cable
- ITEM #2120-1030 Lip Clip
- ITEM #2120-1040 Y-shaped Stick

Technical Specifications

Product Category	Electronic Apex Locator
Product Name	NaviRoot
Rated Current	DC4.5V (1.5 vdc x 3 "AA"Alkaline batteries)
Power Consumption	150mW ± 10%
Calibrated Current	4.5μA ± 10%
Display	LCD Display
Dimensions	153 x 138 x 44mm (W x D x H)
Weight	Approx. 420g
Туре	Internal power BF

Electronic Apex Locator

NaviRoot is a root canal length measuring device for a successful endodontic treatment. NaviRoot offers a new level of accuracy and stability and also delivers easy operation and reliable measurement.

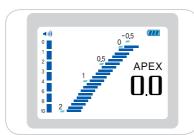

How to use NaviRoot

How to control Apex Numeric Indicator

Control range of indicator- 0.0 to 2.0 as unit of 0.1 mm

- Push " au " button once, then Apex Numeric Indicator is twinkling
- To increase Apex Numeric Indicator (ex. $0.5 \rightarrow 0.6$), push " \bigcirc " button
- To decrease Apex Numeric Indicator (ex. $0.5 \rightarrow 0.4$), push " \bigcirc " button
- Push " on " button to confirm the setting after adjustment of Apex Numeric Indicator (New mode is not functional if " strain if " button has been not pushed)

How to control Volume of Sound

- Push " 🙉 " button twice, Sound Indicator is twinkling
- To increase sound volume, push " \(\shcap \)" button
- Push " str " button to make sure of setting

How to change Mode of Battery

- **r.b** Rechargeable Battery
- A.b Alkaline Battery
- Push " au " button 3 times, Battery Indicator is twinkling
- Push buttons of " or " or " a", change it to r.b or A.b in the bottom of right corner
- Once you select Mode of Battery used, please make sure of setting with " 🖘 " button
- The mode is being set as Alkaline battery in the factory, but please confirm the mode prior to use it

Features

Greater Accuracy

- Remarkable accuracy and predictability in wet canals
- Automatic calibration for very accurate diagnosis in wet & dry canals
- Not cause any problems in high temperature and humidity
- High level of accuracy for measurement by manufacturing of Frequency Type
- Precise indication on the monitor for APEX reaching point by Dual Frequency
- Possible to examine precisely by the unit of 0.1mm indicator
- Possible to conduct very effective operation with both indicators and graphs simultaneously
- Lower level of system failure with Self-Diagnosis Function
- : Push " 👩 " button 10 times, 6 digits are being shown in the bottom of right corner. The function is normal if the difference is under ± 5 between the first 3 digits and last 3 digits

Larger Screen

- Large screen with digital and graphical feed back
- Can be connected to personal computer(option)

Longer Battery Life

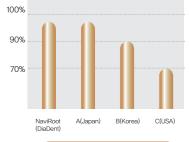

- Auto Power Off function (Timer 8 minutes)
- Easy to read battery power indication
- Has battery efficiency with very lower level of power consumption
- Use AA type Alkaline battery (3ea included in a package)
- Can be used rechargeable battery

Hi-Tech New Model for the Dentist

- Advanced function produces clinical accuracy rate and predictability
- Hi-Technology design has great stability and ergonomic applicability

Simple & Easy to use

- Holder & Touch type probes included
- Foldable screen adjusts to desired viewing angle

Cautions

- Hard to measure it under the condition of very dried root canal. In this case, get a good result with NaviRoot to inject salt solution or saline solution
- System failure can be occurred, if teeth surface is covered by metal substances
- If tooth surface is covered with too much moisture, an error can be raised during measurement. Please note that tooth surface should be properly dried before operation
- It can be indicated "Over-Instrumentation" when you check Apex points of damaged tooth

Accessories

- a File Holder: Use for Anterior teeth (Autoclavable)
- b Y-Shaped Stick: Use for Posterior teeth (Autoclavable)
- c Lip Clip: After Autoclave, dry it with a towel for more effective use. (Autoclavable)
- d Cable
